

JOSH ALACH

Modern Impressionist Wedding Photography

Fusing techniques learned over a ten year period with an innate artistic eye, Josh is breaking the door open on what others traditionally offer as standard package wedding photography. This guarantees the personalities, emotion, fun and festivity of the day are captured as frozen moments tailored to the unique qualities of the wedding couple.

What others have said:

'The service provided by Josh was nothing short of exceptional. More than just photographic quality, his sense of our personalities and ability to capture brilliant little moments in the midst of all the mayhem made our photos very special.'

David Sloane, 16th Dec 2010

'Adam and I are delighted with Josh's work, his understanding of what we wanted to achieve was very refreshing! We're happy with what we received and have already been asked several times.. "Who took your photos?? They're amazing!" Highly recommend Josh! Creative and a pleasure to work with!'
